Born April 13 in Hiroshima.  
She loves cats, travelling and doing nothing.  
She has blood type O and her horoscope sign  
is Ram.  
She probably debuted with "Shima Shima  
Everyday" (Zassosha).  
Her most representative work must be  
"Karubania Monogatari" (Tokuma Shoten).

## The Yellow Beach

Painful memories hidden in a picture of a yellow beach. This story and many others. For example, "Flower Guy" is a wonderfully drawn tale about a man who's worried about always wearing flower fragrances. A compilation of fifteen short stories, overflowing with Tono taste.
